

## **ArkMix AB Quality- and Environmental Policy**

### **Quality Policy:**

ArkMix AB is required to meet customer needs and preferences for a range of products, quality and delivery of the goods and services we deliver.

Through continuous improvement, superior service and long-term profitability of the company, we will strengthen our good reputation for competence and reliability.

The concept of quality should permeate the entire company. It is every employee's responsibility to act in such a way that our company is perceived as synonymous with quality of both customers and suppliers.

### **Environmental Policy:**

ArkMix AB is to continuously improve the internal environmental work to reduce the negative environmental impact and prevent undue strain on the environment.

We should be able to offer the customer the knowledge of our products and maintenance to minimize the environmental effects and the prevention of emissions and pollution.

We must also educate and involve staff in our ongoing environmental efforts and to ensure that the requirements of laws and regulations are met.
